	lot	SUPPLY, DELIVERY, AND INSTALLATION OF DATA CENTER INFRASTRUCTURE FOR ALL OSG OFFICES (FY 2025 NEP) RACK-MOUNTED SERVER LENOVO THINKSYSTEM SR650 V3 SERVER - 3 units Form Factor: 2U Rackmount Processor: Up to 60 cores, with a core speed of up to 3.7 GHz. Memory: DDR5, up to 4800 MHz, with up to 8TB of system memory and 32 DIMM slots. 8 x 32GB Drive Bays: Up to 40 x 2.5-inch SAS/SATA Internal Drives Up to 20 x 3.5-inch SAS/SATA Internal Drives Hard Drives: At least 2 x 2.5" 480GB SATA SSD boot drives. RAID Controller: Supports RAID 0, 1, 10, and 5. Ethernet: At least a 10GB 4-port Base-T adapter and at least 2 x 2-port 16GB Gen5 HBA. Diagnostic Tool: At least one external diagnostic handset. Management Software: The same hardware management software. Supports viewing system information and inventory. Capable to monitor system status and health. Includes event logging. Provides system firmware updates. Allows configuring security and network connectivity. Manages features through on-demand activation keys. Provides real-time power usage monitoring. Automatically detects hardware. Supports remote mounting of ISO and image files via HTTPS, SFTP, CIFS, and NFS. Maps ISO and image files located on the local client as virtual drives for use by the server. Supports remote viewing video with the following graphics resolution: Up to 1600x1200 with up to 23 bits per pixel, or Up to 1920x1200 with up to 15 bits per pixel. Allows access to the server using a keyboard and mouse from a remote client. Supports remote deployment and/or installation of operating systems. Capable of capturing both: (a) Boot Video, and (b) Crash Video. Enable virtual console collaboration, allowing up to 6 remote users to log into the remote session simultaneously. Provides proactive alerts for processors, memory, internal storage, fans, power supplies, Redundant Array of Independent Disk (RAID) controllers, rack and chassis maps, and server ambient and sub-component temperatures. Software: Bundled with operations management software, and all processor cores are licensed. Security and Features: Chassis intrusion switch. Power-on password Administrator password Root of Trust module supporting TPM 2.0 and Platform Firmware Resiliency (PFR) Ability to track hardware and software information remotely Power Supply: 2 x hot-swap/redundant 750W Platinum certified.	1	Php 7,995,500.00	Php 7,995,500.00

		<p>STORAGE AREA NETWORK (SAN) LENOVO THINKSYSTEM DE4000H HYBRID STORAGE ARRAY - 1 unit SAN Storage: Directly attached to the host via Fiber Channel. Controller Configuration: Dual active (active-ctive) controller configuration with automatic load balancing. Controller Memory: At least 16GB (8GB per controller). Supports cache mirroring between controllers. Flash-backed cache protection (includes a battery for destaging to flash) or better. RAID Levels: Supports RAID 0, 1, 3, 5, 6, 10, and Dynamic Disk Pools. Expansion Enclosure Support: Capable of accommodating up to 7 SFF/LFF expansion or any combination thereof. Storage Capacity: At least 200TB of usable capacity with 12 x 22TB HDD or better. Host Connectivity: At least 8 x 8/16GB FC SFP+ (4 ports per controller). Host Operating Systems: Supports Windows Server, RHEL, SLES, and vSphere. Features: Includes standard snapshots of up to 128 targets at no additional cost. Includes volume copy. Includes thin provisioning. Includes automated path failover support for the data path between the host the drives, using multipathing software. Includes a non-disruptive controller and drive firmware upgrades. Allows the capacity of a volume to be expanded by adding new physical drives or using unused space on existing drives. Ensures industry-standard T10-PI end-to-end data integrity within the storage system (from the host ports to the drives). Managed in a single pane of glass. Provides automated input/output workload balancing of traffic between the hosts and both controllers. Ability to track hardware and software information remotely. Security Features: Role-Based Access Control (RBAC) LDAP Authentication User-Level Security Secure Sockets Layer (SSL) Secure Shell (SSH) Transceiver: Universal 8x 10Gb iSCSI/16Gb FC SFP+ Module Power Supply: At least 913W (100-240 V) Platinum AC redundant power supplies Power Cable: At least 1.5m, 10A/100-250V, C13 to IEC 320-C14 Rack Power Cable (with adapter/conenctor compatible to Philippine standard socket). Management Port: 1x 1 GbE port (UTP, RJ-45) per controller for out-of-band management. 2x Serial console ports (RJ-45 and Micro-USB) for system configuration. In-band management via I/O path.</p> <p>WARRANTY: * 3-year warranty, including 24/7 support with a 4-hour response time after an email has been sent. * with data retention.</p> <p>The following documents shall be deemed to form & construed as part of this agreement: Contract Agreement Philippine Bidding Documents - Schedule of Requirements - Technical Specifications / Terms of Reference - General and Special Conditions of Contract Eligibility Requirements, Technical and Financial Proposal Performance Security Notice of Award Notice to Proceed Other documents may be required by laws</p>			
Total Amount in Words: Seven Million Nine Hundred Ninety Five Thousand Five Hundred Pesos Only					Php 7,995,500.00

In case of failure to make the full delivery within the time specified above, a penalty of one-tenth (1/10) of one percent for every day of delay shall be imposed.

Very truly yours,
