1	<p>“The service required by the Contract shall be rendered at the <i>OSG Building, 134 Amorsolo St., Legaspi Village, Makati City</i> as well as in other properties rented by the OSG as its office premises. Risk and title will pass from the Supplier to the Procuring Entity upon receipt and final acceptance of the Goods at their final destination.”</p> <p>Delivery and Documents –</p> <p>For purposes of the Contract, “EXW,” “FOB,” “FCA,” “CIF,” “CIP,” “DDP” and other trade terms used to describe the obligations of the parties shall have the meanings assigned to them by the current edition of INCOTERMS published by the International Chamber of Commerce, Paris. The Delivery terms of this Contract shall be as follows:</p> <p><i>[For Goods supplied from abroad, state:]</i> “The delivery terms applicable to the Contract are DDP delivered to <i>OSG Building, 134 Amorsolo St., Legaspi Village, Makati City</i>. In accordance with INCOTERMS.”</p> <p><i>[For Goods supplied from within the Philippines, state:]</i> “The delivery terms applicable to this Contract are delivered to <i>OSG Building, 134 Amorsolo St., Legaspi Village, Makati City</i>. Risk and title will pass from the Supplier to the Procuring Entity upon receipt and final acceptance of the Goods at their final destination.”</p> <p>Delivery of the Goods shall be made by the Supplier in accordance with the terms specified in Section VI (Schedule of Requirements).</p> <p>For purposes of this Clause the Procuring Entity’s Representative at the Project Site is the <i>Supplies Section of the Administrative Division</i>.</p> <p>Incidental Services –</p> <p>The Supplier is required to provide all of the following services, including additional services, if any, specified in Section VI. Schedule of Requirements:</p> <ul style="list-style-type: none"> a. performance or supervision of on-site assembly and/or start-up of the supplied Goods; b. furnishing of tools required for assembly and/or maintenance of the supplied Goods; c. furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied Goods;

	<p>d.performance or supervision or maintenance and/or repair of the supplied Goods, for a period of time agreed by the parties, provided that this service shall not relieve the Supplier of any warranty obligations under this Contract; and</p>
	<p>e.training of the Procuring Entity's personnel, at the Supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied Goods.</p> <p>The Contract price for the Goods shall include the prices charged by the Supplier for incidental services and shall not exceed the prevailing rates charged to other parties by the Supplier for similar services.</p> <p>Spare Parts –</p> <p>The Supplier is required to provide all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the Supplier:</p>
	<p>Packaging –</p> <p>The Supplier shall provide such packaging of the Goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in this Contract. The packaging shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packaging case size and weights shall take into consideration, where appropriate, the remoteness of the Goods' final destination and the absence of heavy handling facilities at all points in transit.</p> <p>The packaging, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the Contract, including additional requirements, if any, specified below, and in any subsequent instructions ordered by the Procuring Entity.</p> <p>The outer packaging must be clearly marked on at least four (4) sides as follows:</p> <p>Name of the Procuring Entity Name of the Supplier Contract Description Final Destination Gross weight Any special lifting instructions</p>

	<p>Any special handling instructions Any relevant HAZCHEM classifications</p>
	<p>A packaging list identifying the contents and quantities of the package is to be placed on an accessible point of the outer packaging if practical. If not practical the packaging list is to be placed inside the outer packaging but outside the secondary packaging.</p> <p>Transportation –</p> <p>Where the Supplier is required under Contract to deliver the Goods CIF, CIP, or DDP, transport of the Goods to the port of destination or such other named place of destination in the Philippines, as shall be specified in this Contract, shall be arranged and paid for by the Supplier, and the cost thereof shall be included in the Contract Price.</p> <p>Where the Supplier is required under this Contract to transport the Goods to a specified place of destination within the Philippines, defined as the Project Site, transport to such place of destination in the Philippines, including insurance and storage, as shall be specified in this Contract, shall be arranged by the Supplier, and related costs shall be included in the contract price.</p>
	<p>Where the Supplier is required under Contract to deliver the Goods CIF, CIP or DDP, Goods are to be transported on carriers of Philippine registry. In the event that no carrier of Philippine registry is available, Goods may be shipped by a carrier which is not of Philippine registry provided that the Supplier obtains and presents to the Procuring Entity certification to this effect from the nearest Philippine consulate to the port of dispatch. In the event that carriers of Philippine registry are available but their schedule delays the Supplier in its performance of this Contract the period from when the Goods were first ready for shipment and the actual date of shipment the period of delay will be considered force majeure.</p> <p>The Procuring Entity accepts no liability for the damage of Goods during transit other than those prescribed by INCOTERMS for DDP deliveries. In the case of Goods supplied from within the Philippines or supplied by domestic Suppliers risk and title will not be deemed to have passed to the Procuring Entity until their receipt and final acceptance at the final destination.</p> <p>Intellectual Property Rights –</p> <p>The Supplier shall indemnify the Procuring Entity against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the Goods or any part thereof.</p>

2.2	<p>Payments are governed by the necessary auditing and accounting rules.</p> <p>Supplier agrees to be paid based on a progressive billing scheme as follows:</p> <ul style="list-style-type: none"> • Within thirty (30) days from completion of the delivery and issuance of the Inspection and Acceptance Report by the OSG, and submission of all other required documents - 95% of the contract price. • One (1) year from the issuance of the Inspection and Acceptance Report by the OSG - 5% of the contract price.
4	No further instructions.

Section VI. Schedule of Requirements

The delivery schedule expressed as weeks/months stipulates hereafter a delivery date which is the date of delivery to the project site.

Item No.	Description	Quantity	Total	Delivered, Weeks/Months
	Procurement of Cloud Platform for OSG			The Bidder must not exceed the ten days (10) days delivery lead-time upon receipt of the Notice to Proceed (NTP)

Section VII. Technical Specifications

Technical Specifications

Item	Specification	Statement of Compliance
		<p><i>[Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidder's statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.]</i></p>

CLOUD PLATFORM FOR OSG

A. CLOUD REQUIREMENTS

Rationale

In compliance with the Government's "Cloud First Policy" mandate, the Office of the Solicitor General is planning to use cloud computing to enable ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g., networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction.

This is in adherence to the requirement to partially replace the antiquated server and backup infrastructure of OSG. This cloud migration will help the agency reduce ICT acquisition and operation costs, achieve operational excellence, reduce security gaps, increase employee productivity, and develop excellent online services.

The Renewal of Cloud Computing Services subscription period shall be twelve (12) months from May 31, 2023.

The subscription to cloud computing services will maintain the performance and functionality of its systems and ensure its compatibility with the existing setup of OSG application systems and databases. Hence, reference to brand names is authorized under Section 18 of 2016 Revised IRR of RA 9184, which provides that "reference to brand names shall not be allowed except for items or parts that are compatible with the existing fleet of equipment of the same make and brand, and to maintain the performance, functionality and useful life of the equipment." (Emphasis supplied)

1. AVAILABILITY

The online subscription to the cloud computing platform shall be made available 24/7 to the authorized users of the OSG throughout the entire duration of the 1-yr subscription.

2. SCOPE OF SERVICES

The web hosting service and standard web hosting support service provider shall:

- Supply and deliver the required services stipulated in the Purchase Request
- The cloud service provider, through its local counterpart technical support, will be responsible for provisioning the required cloud platform, services, and associated licenses with the following specifications to ensure compatibility with OSG continuous services follow:

Service Features	Requirements	Compliance
Traffic Management	Capability to control the distribution of traffic across application endpoint. Continuous monitoring of endpoint health and status	
IP Requirement	Provide public IP resources to communicate with other cloud resources, on-premises networks, and the internet	
Security	Inclusion of a unified security management platform that includes security health monitoring of cloud workloads, and security threat blocking through access and application control	
Privacy	Must adhere to the Data Privacy Act of 2012 (RA 10173), must offer continuous security health monitoring for the entire cloud environment	
Scalable Resources	Provide the capability to increase/decrease resources as needed to support any periods of unpredictable resource usage. Scalable resources must include Bandwidth, Servers, Storage, and Database instances	
Vendor Support	Virtual machine availability and connectivity must be at least 99% up all the time	

3. MINIMUM REQUIRED SPECIFICATIONS / FEATURES

DESCRIPTION	Statement of Compliance
GENERAL REQUIREMENTS	
1. Hosting the cloud-based systems developed and implemented by the OSG.	
2. Fully compatible and integrated with the existing cloud-hosting platform of OSG.	
3. Fully compatible to integrate with OSG's existing on-premises environment.	
4. First-party single sign-on capability with OSG's identity and access management service	
5. The proposed cloud solution must be in the "leader's	

quadrant" in Infrastructure Services in the Gartner Magic Quadrant 2021	
6. The solution must be in an Infrastructure-as-a-Service environment and Platform-as-a-Service Environment	
7. Continuously use the existing OSG tenant account	
8. The solution must support Platform as a Service - it provides a platform allowing one to develop, run and manage applications without the complexity of building and maintaining the infrastructure.	
9. The solution should enable seamless resource/workload movement from cloud source to destination.	
10. The cloud service provider offers better security for applications and data than the security would attain in-house.	
11. The solution must have an IaaS that provides all the infrastructure to support web apps, including storage, web and application servers, and networking resources.	
12. The solution must have a framework for easily building and customizing cloud-based applications	
13. The solution must support geographically distributed development teams	
14. The solution must efficiently manage the application lifecycle	
15. The solution must have an IaaS that makes it quick and economical to scale dev/test environments up and down.	
16. The solution must simplify the planning and management of backup and recovery systems.	
17. The solution must have a Web Application Firewall (WAF).	
18. The solution must have a Managed DNS.	
19. The solution must have a Managed SQL database in the cloud.	
20. The solution must have Microsoft Defender for the cloud	
21. All data at rest and in transit must be encrypted.	
22. The solution must have a DevOps tool	
23. The solution must have equivalent server specifications	

based on the existing solution.	
24. The solution must retain the current fully qualified domain name	
25. The solution must be capable and compatible with hosting the existing cloud environment	
26. The cloud SQL database must be accessible anywhere to update the table contents but must have proper security measures.	
27. The solution must have an interactive Graphical User Interface (GUI) accessible in any location, allowing the cloud administrators and development teams to conveniently access, manage, provision, and modify all cloud services and components instantly and securely. Multi-factor Authentication is recommended.	
28. The solution must have monitoring tool/s for application performance, analytics, system health, and diagnostic logs.	
29. The winning bidder must provide As-Built documentation or manual, including testing results.	
30. The winning bidder will be responsible for migrating instances and workloads from MS Azure to another provider if the present platform or provider differs from the hosted solution.	
SECURITY REQUIREMENTS	
1. Security has the feature of continually assessing the security posture, tracking new security opportunities, and precisely reporting progress.	
2. Security can secure the workloads with step-by-step actions that protect the workloads from known security risks.	
3. Security can generate a secure score for your subscriptions based on an assessment of your connected resources	
4. Security can detect threats targeting Azure services, including Azure App Service, Azure SQL, Azure Storage Account, and more data services.	
5. security can defend the workloads in real-time so can react immediately and prevent security events from developing.	
6. The security has advanced threat protection features for virtual machines, SQL databases, containers, web	

applications, your network, and more	
7. security can help limit exposure to brute force attacks.	
8. The security has capabilities that help automatically classify data in Azure SQL.	
WEB APPLICATION FIREWALL	
1. Must have protection against web vulnerabilities and attacks.	
2. Must be capable of protecting multiple websites or applications.	
3. WAF Policies must be customizable for each web application.	
4. Protection against malicious bots and IPs.	
5. Must have protection against common attacks such as SQL Injection, cross-site scripting, command injection, HTTP hi-jacking, HTTP protocol violation and anomalies, crawlers, and scanners.	
6. Must have geo-location filtering.	
7. Must be capable of inspecting JSON and XML.	
8. Must be integrated and configured with the centralized monitoring tool for centralized monitoring.	
9. Must have customizable rules/policies to suit application requirements	
10. Must have logging and monitoring that can be saved or imported to PDF for printing.	
11. Must be integrated and configured with the centralized monitoring tool.	
INFRASTRUCTURE	
1. Must have a financially backed service level agreement (SLA) that guarantees monthly availability.	
2. Must provide preferential discounts for Virtual Machine services for securing longer term consumption and Bring Your Own License (BYOL) with corresponding software maintenance program.	
3. Must provide extended security updates for Windows Server 2008 and SQL Server 2008 workloads moving to the	

cloud without additional cost.	
4. Must provide additional 3-year extended security updates for Windows Server 2012 and SQL Server 2012 workloads moving to the cloud with additional cost.

B. SUBSCRIPTION DURATION

12 months subscription as an upfront monetary commitment, with usage-based consumption. "Top-up" enabled for additional commitment balance anytime if required.

C. PRODUCT SUPPORT REQUIREMENT

- One (1) year standard support
- For technical assistance, the contact person would be designated by the subscription provider and support through email/online/phone for the entire duration of the subscription with complete end-to-end customer management such as value-added services, provisioning, management, billing, and technical support from the service provider. The contact person may be required to visit OSG if deemed necessary.
- The winning bidder must provide 8x5 technical support through unlimited phone, email, remote, and chat.
- Must have a high priority level for the Cloud Provider Technical Support available 8x5 with unlimited phone, email, remote, and chat assistance.
- The winning bidder will provide technical support covering the following but not limited to:
 - Online incident submission
 - Less than 4 hours response time upon receipt of the request from OSG.
 - Consulting services on azure related support and services.
- Furnish OSG the monthly data usage/consumption report.

D. APPROVED BUDGET OF CONTRACT (ABC)

The amount of ABC is two million seven hundred fifty thousand pesos (PHP 2,750,000.00) inclusive of all government fees, and bank transfer fees.

E. PRICING AND QUOTATION

The quoted price must include all taxes due to national and local governments; however, if a transfer of funds through authorized banks will be executed, all charges applicable shall be shouldered by the service provider.

Terms of payment are yearly, one-time payment, based on the submission of the Agency Procurement Request with proof of payment.

F. DELIVERY

The subscription shall be provided to OSG before the anniversary date of its existing cloud platform (May 31, 2023) after receiving NOA and NTP.

The Supplier shall demonstrate that the requirements specified by OSG are properly provisioned and configured, including all the necessary migration and customization.

G. KNOWLEDGE TRANSFER

- The Supplier shall provide Administration training for the proposed cloud solution for 10 participants.
- The training shall be conducted face-to-face, led by a Certified Engineer/Trainer. In the event that a Certified Engineer/Trainer is not available locally, online/virtual training shall be allowed, provided that learning tools and materials shall be accessible/provided to the participants.

H. SERVICE PROVIDER QUALIFICATIONS

- Certifications and other documentary requirements listed below shall be submitted with the bid proposal in compliance with Technical Specifications.
- The service provider must have the necessary eligibility, experience, and expertise in providing the service, with the following credentials:
 - The prospective service provider must be at least three (3) years as an authorized distributor of the cloud computing platform, as attested through a signed manufacturer's certification. In the case of being a reseller, partner, or dealer, a signed local distributor's certification is needed.
 - The Supplier must have completed at least (3) projects similar to a virtual machine and cloud solution services.
 - The Supplier must have completed satisfactorily at least (3) projects similar to the proposed cloud solution.
 - The prospective service provider must have at least one (1) Agile Project Manager.
 - The supplier must have at least three (3) Cloud Network and Security Certified Engineers
 - The supplier must have at least three (3) Security Operations Analyst

- The supplier must have at least one (1) Cloud Solutions Architect Expert
- The supplier must have at least one (1) Enterprise Administrator Expert
- Service Level Agreement (SLA)
- Non-Disclosure Agreement (NDA)

The Cloud Service Provider shall be responsible for the following:

- Provide one (1) year of support services.
- The prospective service provider must be an authorized distributor of the cloud computing platform, as attested through a signed manufacturer's certification. In the case of being a reseller, partner, or dealer, a signed local distributor's certification is needed.
- The prospective service provider must provide knowledge transfer after the project implementation.

ESSENTIAL CHARACTERISTICS OF CLOUD COMPUTING PLATFORM	Compliance
On-demand Self-service. Unilaterally provision computing capabilities, such as server time and network storage, as needed automatically without requiring human interaction with CSP.	
Broad Network Access. Capabilities are available over the network and accessed through standard mechanisms that promote use by heterogeneous thin or thick client platforms (e.g., mobile phones, tablets, laptops, and workstations).	
Resource Pooling. The provider's computing resources are pooled to serve multiple consumers using a multi-tenant model, with different physical and virtual resources dynamically assigned and reassigned according to the agency's demand. There is a sense of location independence since the government agency generally has no control or knowledge over the exact location of the provided resources but may be able to specify the location at a higher level of abstraction (e.g., country, state, or data center). Examples of resources include storage, processing, memory, and network bandwidth.	
Rapid Elasticity. Capabilities can be elastically provisioned and released, in some cases, automatically, to scale rapidly outward and inward commensurate with demand. To the end-user, the capabilities available for provisioning often appear to be unlimited and can be appropriated in any quantity at any time.	
Measured Service. Cloud systems automatically control and optimize resource use by leveraging a metering capability at some level of abstraction appropriate to the type of service (e.g., storage,	

processing, bandwidth, and active user accounts). Resource usage can be monitored, controlled, and reported, providing transparency for both the provider and consumer of the utilized service.	
SECURITY	
The CSPs should meet international security standards and should abide by all relevant Philippine laws and industry standards.	
Data that can be migrated to the public cloud will need to meet security requirements for accreditation and be verified by internationally recognized security assurance frameworks. Accepted international security assurance controls include ISO/IEC 27001 and 27018, Service Organization Controls Report (SOC) 1 and 2, and the Payment Card Industry Data Security Standard (PCI DSS). Data will be encrypted using industry-tested and accepted standards and algorithms, such as AES (128 bits and higher	

TERMS OF PAYMENT		Compliance
	Supplier agrees to be paid based on a progressive billing scheme as follows:	
	<ul style="list-style-type: none"> • Within thirty (30) days from completion of the delivery and issuance of the Inspection and Acceptance Report by the OSG, and submission of all other required documents - 95% of the contract price. • One (1) year from the issuance of the Inspection and Acceptance Report by the OSG - 5% of the contract price. 	
DELIVERY		Compliance
	10 Days upon receipt of NTP	
Training	Knowledge transfer and training for end users (IT) within the 10-day period delivery period.	

*Section VIII. Checklist of Technical and
Financial Documents*

Checklist of Technical and Financial Documents

I. TECHNICAL COMPONENT ENVELOPE

Class "A" Documents

Legal Documents

- (a) Valid PhilGEPS Registration Certificate (Platinum Membership) (all pages) **in accordance with Section 8.5.2 of the IRR;**

Technical Documents

- (b) Statement of the prospective bidder of all its ongoing government and private contracts, including contracts awarded but not yet started, if any, whether similar or not similar in nature and complexity to the contract to be bid; **and**
- (c) Statement of the bidder's Single Largest Completed Contract (SLCC) similar to the contract to be bid, except under conditions provided for in Sections 23.4.1.3 and 23.4.2.4 of the 2016 revised IRR of RA No. 9184, within the relevant period as provided in the Bidding Documents; **and**
- (d) Original copy of Bid Security. If in the form of a Surety Bond, submit also a certification issued by the Insurance Commission **or** Original copy of Notarized Bid Securing Declaration; **and**
- (e) Conformity with the Technical Specifications, which may include production/delivery schedule, manpower requirements, and/or after-sales/parts, if applicable; **and**
- (f) Original duly signed Omnibus Sworn Statement (OSS) **and** if applicable, Original Notarized Secretary's Certificate in case of a corporation, partnership, or cooperative; or Original Special Power of Attorney of all members of the joint venture giving full power and authority to its officer to sign the OSS and do acts to represent the Bidder.

Financial Documents

- (g) The Supplier's audited financial statements, showing, among others, the Supplier's total and current assets and liabilities, stamped "received" by the BIR or its duly accredited and authorized institutions, for the preceding calendar year which should not be earlier than two (2) years from the date of bid submission; **and**
- (h) The prospective bidder's computation of Net Financial Contracting Capacity (NFCC) **or** A committed Line of Credit from a Universal or Commercial Bank in lieu of its NFCC computation.

Class "B" Documents

- (i) If applicable, a duly signed joint venture agreement (JVA) in case the joint venture is already in existence **or** duly notarized statements from all the potential joint venture partners stating that they will enter into and abide by the provisions of the JVA in the instance that the bid is successful.

II. FINANCIAL COMPONENT ENVELOPE

- (j) Original of duly signed and accomplished Financial Bid Form; **and**
- (k) Original of duly signed and accomplished Price Schedule(s).

Other documentary requirements under RA No. 9184 (as applicable)

- (l) *[For foreign bidders claiming by reason of their country's extension of reciprocal rights to Filipinos]* Certification from the relevant government office of their country stating that Filipinos are allowed to participate in government procurement activities for the same item or product.
- (m) Certification from the DTI if the Bidder claims preference as a Domestic Bidder or Domestic Entity.
